About IPification

IPification is building the backbone of mobile authentication of today and tomorrow. By verifying the phone number, SIM card and device via IP address, IPification patented technology enables secure, passwordless, zero-tap compatible mobile user authentication, registration, transaction approval and fraud prevention solutions for any mobile application. Readily available across numerous countries and regions, IPification is trusted by the leading telecom, technology, payment, and OTT companies.

Team Biographies

Harry Cheung

Founder

<https://www.linkedin.com/in/ipharry>

Harry is a serial entrepreneur with more than 20 years of experience in cybersecurity and data protection. Before establishing Benefit Vantage Limited in 2014 and IPification in 2017, he established & grew Kaspersky Lab's presence in the Asia Pacific region and served as a company's Board of Directors member.

Steven Yap

President

A Simon Fraser University graduate, Steven Yap has over 20 years of experience in the telecommunication industry with a proven track record, including that of a co-founder. As IPification's President, Steven focuses on streamlining the company's acquisitions, team leadership and business development.

Stefan Kostić

Chief executive officer

<https://www.linkedin.com/in/stefankostic>

Stefan has more than 10 years of experience in the fintech and telecom industries and has spearheaded business development across the Asia Pacific region for over 5 years before joining IPification. As the Chief Executive Officer, he is focused on growing the revolutionary mobile authentication technology globally.

Aleks Branković

Chief technology officer

<https://www.linkedin.com/in/aleksandar-branković-92037022>

Aleksandar is a proven software development leader with more than 10+ years of experience. His vision and expertise lead Centili from a startup project to a successful company. Now he leads the development of IPification - mobile authentication technology that is on its way to change the world.

Christopher Bellamy

Chief legal officer

Christopher has almost twenty years of work experience, for various corporations in London, Beijing, Kuala Lumpur and Hong Kong. As CLO he is responsible for company-wide legal and contractual matters, data security and protection and oversight of regulatory compliance.

Dr. Alexandra Kalinina

Chief marketing officer

<https://www.linkedin.com/in/alexandrakalinina/>

Alexandra has a truly international background. She is an expert in entrepreneurship, driving brand awareness and global revenue (PhD in Management). Now she leads the marketing division of IPification and is responsible for planning, developing, and implementing the overall business marketing strategy.

Daniel Kurgan

Founder advisor

<https://www.linkedin.com/in/stefankostic>

Daniel is an accomplished and well-rounded international intrapreneur CEO with more than 20 years of experience in the telecommunications industry. Having built BICS from the ground up, he has a strong track record in optimizing a highly complex business with low margins and making it the most profitable of its category.

Paul Tse

Chief strategy officer

<https://www.linkedin.com/in/stefankostic>

Paul has over 30 years of experience as a barrister and solicitor, with a license to work in Hong Kong, Australia, and Singapore. His extensive legal expertise is crucial for developing IPification's growth strategy.

Dr. Xiaofeng (Louis) Chen

Chief information officer

<https://www.linkedin.com/in/stefankostic>

Louis is a Doctor of Juridical Science. As CIO, he focuses on legal research, venture investment, and technological innovation.
