

IPification Wins in the Mobile Security Category at the Security Excellence Awards

(DECEMBER 29 - HONG KONG) The seamless, one-click mobile authentication, user verification, and fraud prevention solution IPification was just named the winner for Mobile Security at the 2020 Security Excellence Awards.

The Security Excellence Awards are organized by Computing, and they celebrate the accomplishments of the IT industry's leading companies, solutions, products, and personalities. Computing has been the leading UK business technology information resource for over 40 years across numerous media channels.

In 2020, they have chosen IPification in the category Mobile Security award from a pool of international nominees.

"I know we will all be remembering 2020 as a very unordinary year. For our devoted team, it's a great pleasure to be recognized once again for providing the best mobile security through our passwordless authentication solution," said IPification CEO, Stefan Kostic. "We're proud to see the Security Excellence Awards, as so many others this year, recognize the potential of IPification."

He added that this award will only motivate the young team further to keep up their commitment and great work on their mission to build the backbone of mobile authentication.

IPification has worked hard this year, having deployed its propriety mobile authentication, user verification, and fraud prevention technology in more than 11 different markets.

About IPification

IPification is building the backbone for mobile authentication of today and tomorrow via cutting edge technology.

MobileID is created from a unique SIM, device, and verified phone number parameters retrieved via IP address. This way, IPification's patented technology is enabling secure, passwordless, zero-tap compatible mobile user authentication, phone verification, and fraud prevention solutions for any mobile application.

In partnership with mobile network operators, IPification is readily available across numerous countries and regions, and trusted by some of the leading telco, technology, payment, and OTT companies including Microsoft, GBG, DataZoo, 3HongKong, Axiata Digital.

As part of Benefit Vantage Limited, the leader in Asia for providing security and data backup solutions headquartered in Hong Kong, IPification has offices and representatives operating in the U.S., U.K., Serbia, Switzerland, Bosnia, Brazil, India, Vietnam and Pakistan.
