

# IPification Wins Most Innovative Tech Startup of the Year at the Asia-Pacific Stevie Awards

**HONG KONG - MAY 10 - The passwordless, one-click mobile identity solutions provider, IPification won two Stevie® awards at the eight annual Asia-Pacific Stevie Awards: Gold for Most Innovative Tech Startup of the Year in Services, and Silver for Most Innovative Startup of the Year in Business Service Industries.**

The Stevie® Awards are the world's premier business awards created in 2002 with the goal of honoring and generating awareness of the accomplishments of businesses worldwide. IPification was chosen from a pool of more than 900 nominations by the world's most respected executives, entrepreneurs, innovators, and business educators.

IPification provides passwordless, one-click mobile identity solutions with state-of-the-art security, respect for data privacy, and a seamless user experience. Its solutions are currently present on more than 550 million devices in 18 markets worldwide.

"The eighth edition of the Asia-Pacific Stevie Awards attracted many remarkable nominations," said Stevie Awards president Maggie Gallagher. "The organizations that won this year have demonstrated that they have continued to innovate and succeed despite the COVID-19 pandemic, and we applaud them for their perseverance and creativity. We look forward to celebrating many of this year's winners during our virtual awards ceremony on 14 July."

"As a company that started out in the Asia-Pacific, it's very rewarding to be recognized at home, as we do worldwide. We'd love to thank the Asia-Pacific Awards for organizing such an inspiring event, it was an honor to be surrounded by so many incredible nominees. I am looking forward to the ceremony in July," added Harry Cheung, IPification Founder and President.

Nicknamed the Stevies for the Greek word for "crowned," the winners will be celebrated during a virtual (online) awards ceremony on Wednesday, 14 July.

## **About IPification**

IPification is building the backbone for mobile authentication of today and tomorrow. By verifying the device, SIM & phone number via IP address, IPification patented technology is enabling secure, passwordless, zero-tap compatible mobile user authentication, registration, transaction approval and fraud prevention solutions for any mobile application.
